PROFESSIONAL EXPERIENCE

WordPress Developer

Kissel & Wolf Australia - Tullamarine, VIC (Australia)
March 2018 - December 2024 December
Casual Contract: January 2025 - August 2025

Website Development

- Built, edited, maintained, and optimized WordPress corporate websites and a customized WooCommerce store aligned with business and marketing objectives.
- Developed scalable website architecture to support content growth and marketing initiatives.
- Customized themes and plugins using WordPress hooks and filters without modifying core files.
- Created custom post types and taxonomies to manage structured, dynamic content.
- Ensured WCAG accessibility compliance, responsive design, cross-browser compatibility, and UX/UI best practices.
- Collaborated closely with graphic designers, video editors, and motion graphics teams to translate creative assets into high-performance WordPress websites aligned with communications strategy and brand objectives.
- Deployed updates and full site launches from staging to live production environments, ensuring zero downtime, secure transitions, and seamless user experience.

Website Architecture & Security

- Managed hosting environments, domain configurations, SSL implementation, and secure deployments.
- Reduced website downtime by 50% through proactive monitoring and preventative maintenance.
- Decreased plugin-related conflicts by 60% through code optimization and CMS governance.
- Reduced security alerts by 25% through secure configurations and risk mitigation strategies.
- Ensured client confidentiality and secure integration of CRM and third-party systems.

Advertising Performance & Data

- Managed Google Ads campaigns, conversion tracking, and landing page optimization.
- Implemented and managed performance tracking systems including GA4, Google Tag Manager, Meta Pixel, and Google analytics to monitor advertising ROI and user engagement metrics.
- Partnered with marketing and ad buying teams to align website structure, landing pages, and conversion tracking with paid media strategy.
- Prepared analytics dashboards and performance reports to guide digital marketing decisions and client strategy.
- Improved qualified leads by 20% through data-driven UX and landing page enhancements.
- Increased user engagement metrics by 15% through analytics-informed website improvements.

Business & Cross-Team Support

- Collaborated technical input for client pitches and proposals, providing scope estimates, platform recommendations, website architecture plans, and security considerations.
- Supported digital strategy execution and campaign planning across cross-functional teams.
- Completed advanced training in SEO, GA4, and AI-powered search optimization to enhance reporting accuracy and campaign performance.

Web Developer

Sites N Stores Richmond, VIC, Australia
April 2016 - March 2018

- Developed SEO-optimized WordPress and e-commerce websites using WooCommerce, Magento, and PrestaShop.
- Converted PSD designs into responsive, pixel-perfect WordPress templates using HTML, CSS, JavaScript, and PHP.
- Installed, configured, and optimized WordPress core, themes, and plugins.
- Improved page load speed by 40% through caching, compression, and code optimization.
- Reduced vulnerability incidents by 60% through proactive security maintenance.
- Diagnosed and resolved performance, compatibility, and security issues.
- Achieved 100% positive client satisfaction across multiple projects.

Team Leader & Web Developer (Internship)

Edlyn Foods Pvt. Ltd. - Epping, VIC, Australia
